Photographer Requests:

We are unable to hold requests. The schedule rotates based on photographer availability and driving distance.

Photography Rights:

Photo Usage and Online hosted virtual tours remain active and online for whichever ends first; The duration of the life of the active MLS listing, OR up to one (1) year from the project creation date. Project reactivation and renewal may be purchased for a service charge. We license out rights to use photos, not the original photos themselves. This keeps our realtor pricing lower and helps to keep our photo library more available to be reused again when Virtual Tours are reactivated for use later.

Property Staging:

We are unable to stage properties. Photos will be taken of the property, as is, upon our arrival. This is due to scheduling, client requests, and liability.
